

EUROPE & LATIN AMERICA 2025

The Energy Transition Series

OVERVIEW

Get ready to supercharge the future of renewable energy across Iberia and Latin America for 2 days of actionable insights, and dynamic networking opportunities.

Join us in Madrid this May to explore the dynamic world of renewable energy filled with top industry leaders across Europe and Latin America.

Don't miss this change to be a leading actor in the energy transition. Register your interest today and join us for a summit filled with actionable insights, and dynamic networking opportunities.

EMERGING THEMES

- What specific regulatory changes are needed in Europe, Spain, and Latin America are needed to accelerate the deployment of renewables? How can LatAm countries balance regulatory stability with innovation in energy storage and green hydrogen?
- How can the industry address the current bottlenecks in permitting and supply chains to keep pace with ambitious climate goals?
- What strategies can investors adapt to navigate local currency risks and regulatory environments across LatAm?
- What are the most promising strategies for integrating new technologies like CCUS and battery storage into existing energy infrastructures?

MAY 2025 - MADRID

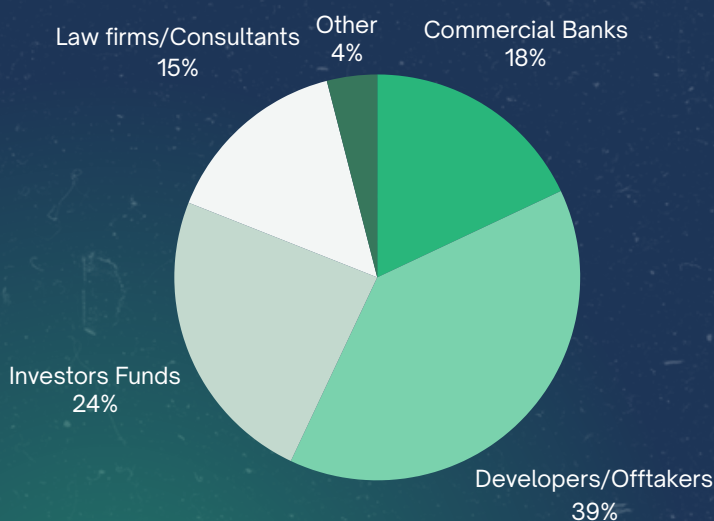

EUROPE & LATIN AMERICA 2025

The Energy Transition Series

WHY ATTEND

- **Cutting-edge discussions:** Dive into the latest updates in the sector from evolving financing structures to technologies like battery storage and floating offshore wind.
- **Energetic formats:** Engage with industry leaders and experts as they address the latest challenges and opportunities in the industry.
- **In-depth country sessions:** Gain unique insights into country markets, from Spain's regulatory landscape to Chile's investment profile dominance and navigating LatAm's tender processes
- **Networking opportunities:** Connect with decision-makers. Our interactive sessions and custom networking-app are designed to help forge lasting connections.
- **Future-focused:** Be at the edge of Europe and LatAm's energy transition and play your role in it.

MAY 2025 - MADRID

EUROPE & LATIN AMERICA 2025

The Energy Transition Series

2025 AGENDA TOPICS

- The decreasing appetite for merchant risk – insights on the evolving energy landscape in Iberia. How are financiers adapting? How can market players diversify their revenue streams to mitigate risks?
- What innovative financial structures are being introduced? Do we expect a rise in ECA and DFI financing?
- What factors will determine if Chile can maintain its leading position despite recent regulatory changes?
- PPA market dynamics – what are the strategies for overcoming pricing and demand issues? What are the opportunities in structuring bankable PPAs and integrating storage solutions into the renewable landscape?
- What's next on the regulatory arena? Will BESS regulation be signed off?
- What does the future of offshore wind tenders hold? How are developers navigating the tender processes?
- Overcoming the challenges – Deep dive into current bottlenecks, supply chain issues, and strategies to advance the project pipeline
